

FOOD ENTERPRISE SOLUTIONS CALL FOR EXPERTS

Call for Experts: Food Fortification

Are you passionate about improving access to safe nutritious foods globally? Do you have experience and technical training in food fortification? FES is seeking food fortification experts to join our talent community for future short-term and long-term consulting opportunities to support small to medium food enterprises.

Overview: Food Enterprise Solutions (FES) is on a mission to energize the global food system to better balance global needs and profit. We leverage the powers of business, entrepreneurship, and innovation as key drivers in the global fight against hunger and malnutrition. We work in partnership with businesses and organizations to provide safe, nutritious, and affordable foods through supply chains that are commercially viable and environmentally sustainable. FES offers expertise in partnership development, market analysis, project design and management, training, and specialized technical assistance to strengthen capacities of - and linkages among - key actors within food systems.

Potential Assignments:

- Conduct landscape assessments of private sector capacity for food fortification and enabling environment in specific countries.
- Provide technical assistance to small-medium food enterprises to improve food fortification capacity and meet national standards.
- Multi-stakeholder engagement to strengthen the culture of food fortification.
- Analyze specific nutrient-dense value chains, including biofortified foods, to identify ways to improve access and availability to vulnerable populations.

Candidate Qualifications:

- A bachelor's or advanced degree in food science/technology, nutrition, or a related field.
- Proven experience in food fortification, including formulation and implementation.
- Experience promoting nutrition-sensitive food supply chains, designing food fortification strategies, managing and/or evaluating food fortification programs.
- Strong understanding of nutrition and dietary requirements.
- Knowledge of food fortification regulations and standards in varying country contexts.
- Strong connections with private sector food enterprises that process nutrient-dense foods.
- Demonstrated research and analytical skills as clear writing abilities.
- Excellent command of spoken and written English.

Additional Attributes:

- Excellent problem-solving and rigorous approach with a high level of attention to detail.
- Effective communication and teamwork abilities.
- Passion for improving global health through nutrition.
- Computer literacy with excellent Excel, MS Word, Outlook, and PowerPoint skills

To Apply: Submit complete resume, cover letter, three references, and salary history to jobs@foodsolutions.global with subject line "Food Fortification Expert".

Food Enterprise Solutions is an Equal Opportunity/Affirmative Action Employer.
