

Food Enterprise Solutions Earns B Corp Certification

FES is proud to announce that we are now a certified B Corp™! Certified B Corporations are leaders in the global movement for an inclusive, equitable, and regenerative economy. To achieve a certification, FES completed a thorough assessment of our practices regarding governance, workers, community, the environment, and customers. By passing the rigorous standards for certification, FES has shown our commitment to staff development, diversity, equity and inclusion, and advancing social good and sustainability through our work.

Why We Chose to Become a B Corp

As a B Corp, we are honored to join a group of corporations who share the same pledge to social responsibility – doing well while also using business as a force for good. As a business, we also benefit from the certification process itself: in addition to recognizing areas of strength in our company, the assessment process identifies opportunities for progress, and this fits the FES culture of continuous improvement – we will continue to report on our performance as well as complete a performance verification every 3 years.

Food Enterprise Solutions was founded to leverage the powers of business, entrepreneurship, and innovation as key drivers in the global fight against hunger and malnutrition. Our commitment to balancing global needs with economic prosperity is a natural fit with the values required of B-Corp companies.
